PROFILE SUMMARY

Full Stack Developer with 1+ year of industry experience building scalable web applications using Next.js, TypeScript, React, Node.js, and MongoDB. Experienced in developing CMS-driven websites, REST APIs, and e-commerce applications with secure payment integration. Skilled in building responsive user interfaces, optimizing application performance, and deploying production applications on AWS EC2 and Vercel. Passionate about writing clean, maintainable code and delivering high-quality user experiences.

SKILLS

Frontend: Next.js, React.js, TypeScript (TSX), JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Backend: Next.js API Routes, Node.js, Express.js, Laravel

Database: MySQL, MongoDB

DevOps & Tools: Git, GitHub, Bitbucket, Postman, Vercel, AWS EC2, cPanel

Others: RESTful APIs, JWT Authentication, Payment Gateway Integration (Razorpay), Redux, CMS Management

WORK EXPERIENCE

Full Stack Developer | **AiimTech Software System** | Sivakasi, Tamil Nadu

Jun 2025 - Present

- Designed and developed production-ready web applications using Next.js, TypeScript, Node.js, Express.js, Laravel, and MongoDB across logistics, healthcare, and e-commerce domains.
- Built responsive and reusable UI components with Next.js (TSX) and Tailwind CSS, delivering consistent user experiences across desktop and mobile devices. Developed and integrated RESTful APIs, optimized database queries, and connected applications with MongoDB and MySQL.
- Built CMS-driven websites by integrating Headless WordPress with Next.js for dynamic content management.
- Developed e-commerce features including product management, shopping cart, order management and secure Razorpay payment integration.
- Managed production deployments on AWS EC2 and Vercel, ensuring reliable application availability and smooth release cycles.
- Collaborated with cross-functional teams using Git and Agile methodologies to deliver scalable, high-quality software on schedule.

PROJECTS

Sigma Transport | *Logistics & Driver Recruitment Platform (Next.js)*

- Built the frontend of sigmatransport.com, integrating a Headless WordPress CMS via REST API to dynamically load content for the landing and marketing pages
- Engineered the driver application experience as a 7-step process in Next.js, handling multi-stage form state and validation across steps
- Built the Next.js backend/API routes to process driver application submissions and store them in a MongoDB database
- Deployed and hosted the application on an AWS EC2 instance

Tech: Next.js, Headless WordPress, MongoDB, AWS EC2, TailwindCSS | URL: <https://www.sigmatransport.com>

Amirthan Oil Mills | *E-commerce Enabled Website*

- Developed a Next.js e-commerce platform featuring product catalog, shopping cart, secure checkout, and Razorpay payment integration.
- Built REST APIs and an admin dashboard for managing products, customer orders, and inventory.
- Optimized application performance and created responsive, user-friendly interfaces using Next.js and Tailwind CSS.

Tech: Next.js, TypeScript, TailwindCSS, Express.js, MongoDB | URL: <https://amirthanoilmills.com>

Cinquare | *Healthcare Web Portals (Next.js)*

- Developed CMS-driven healthcare portals with dynamic sections using Headless WordPress and Next.js

- Built responsive, TailwindCSS-based UI components as Frontend Developer and deployed the portals on Vercel

Tech: Next.js, TailwindCSS, Headless WordPress, Vercel | **Role:** Frontend Developer | **URL:** <https://cinq.care>
